

Parenting to Promote Executive Functioning & Self-Regulation Skills

Does your child struggle with behavior, attention, or emotions?

Are teachers telling you that your child is struggling to organize or complete school work?

Do you want to give your child an edge in developing strong cognitive & behavioral skills?

It's not what you do, it's how you do it!

Learn how to build stronger skills for your child.

Thursday May 5th, 2016 6:30-8:30 pm

- Executive function and self-regulation skills are core deficits in many developmental problems, including attention disorders, learning disabilities, autism spectrum disorders, mental health diagnoses, and behavior disorders.
- Learn *parenting and teaching strategies to promote skill development*, focusing on toddler through elementary-aged children.
- Class will focus on *interactive learning and problem-solving* to teach strategies and activities you can use at home or school on a daily basis.
 - 2 hrs of CEs available for OTs
 - 2 hrs of CEUs for teachers in Positive Behavior
